2. Develop plans to reduce the use and creation of these substances.
3. Make annual reports and summaries of their plans available to their employees and the public.

## Section 2: Prescribed Toxic Substances On-Site

One (1) toxic substance was identified to be reported on a facility wide basis under O. Reg. 455/09 as identified in Table 1 below.

**Table 1: Substances Reported on a Facility Wide Basis<sup>[1]</sup>**

Substance Name	Enters the Facility (Use) (tonnes)	Creation (tonnes)	Contained in Product (tonnes)	Total Quantity Released (tonnes)	Recycled (tonnes)
Manganese (and its compounds)	100 to 1000	0 to 1	10 to 100	0.00	0.00

**Notes:**

[1] All values shown in metric tonnes

To quantify these substances under the Act, Central Stampings Limited utilized facility wide information including estimated creation, released to air, water and land, as well as disposed and recycling off-site as outlined in the table above. Additional information can be viewed on the Environment Canada website.

The following is a summary of the changes from 2017 reporting year to 2018 reporting year.

Substance Name	Reporting Year	CAS	Enters the Facility (Use)	Creation	Released to Air	Recycled	Contained in Product

## Section 3: Summary of Changes

- Manganese did not meet the 10 kilotonnes at 1% concentration threshold to be reported to NPRI Part 1 in 2018, and therefore voluntary reporting to TRA is no longer applicable (O. Reg. 455/09 Amendment ERO #013-4235). An exit record was created for manganese in the federal Environment and Climate Change Canada's Single Window Information Manager.

## Section 4: Exit Record Certification by Highest Ranking Employee

As of June 1, 2018, I, Stephen Earl certify that I have read the report on the toxic substance reduction plan for the toxic substance referred to below and am familiar with its contents, and to my knowledge the information contained in the report is factually accurate and the report complies with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.
